

Good Design

Designer uses an on theme logo that matches the name and theme of the album. the logo also gets the point across without taking up to much space from the rest of the design.

Designer chooses a strong and engaging background that does not take away from the focal point of the design. It instead it enhances it.

Contrast is used well in places like this in the graphic, difference in color and focus between main subject and background allows for strong visual ques between each layer of the design.

Designer uses an appealing art style that matches the theme of the album. Color pallette is calm and engaging.
